- 06 Months Industrial Training in **Advance Manufacturing Operations** from March 08,2022 to September 07,2022
At Karachi Tools Dies and Moulds Center.

LANGUAGE SKILLS

Mother tongue(s): **Urdu**

TECHNICAL SKILLS

Programming Languages:

- Java
- SQL
- C++
- Python
- JavaScript

Frameworks

- ReactJS
- NodeJS

Database

MySQL and Express (Basic)

PROJECTS

- Library Management System (LMS)

Built a UI-based application using **C++** to manage library records, including book details, issue/return transactions, and fine calculations. The system improves accuracy and reduces manual record-keeping.

- E-Commerce website (Grocery-Store)

Created a full-stack web application using **HTML, Tailwind CSS, JavaScript, Node.js, Express.js, and MySQL**. The platform allows users to browse products, manage carts, and place orders with secure data handling.

- Zakat Calculator

Developed a mobile app that calculates Zakat based on user inputs such as cash, gold, silver, and other assets. The application provides accurate results with a simple and user-friendly interface.

- Hospital Management System (HMS)

Developed a database-driven application using **Python** with a simple user interface to manage hospital operations. The system handles patient records, doctor details, appointments, treatments, and billing information efficiently using a structured database.
